SCHOOL LIBRARIES

ARE NEGLECTED

Several School Libraries have been established in the public schools of Marion county within the last two or three years at a considerable expense to the patrons of the schools where such libraries are established, as well as to the state, but not in a single instance, so far as it has come under my observation, have these libraries been used to any appreciable advantage to the pupils or the community where established.

ducing power of her industries.

America must find out what this producing power is and then develop it. The capacity of every plant must be gauged. The ability of every man must be known. For War is Mechanical. It is Chemical. It is Chemical. It is Mining, Manufacturing, Transportation. It is EVERY phase of Engineering fused into a single industry—

"THE NATION'S DEFENSE."

Thirty thousand Engineers today are serving YOUR COUNTRY without pay. They are making a survey of YOUR COUNTRY to FIND ITSELF—and You! They are charting the channels of commerce. Sounding each source of supply. So that, thould the Day breek when War must come—YOUR ARMIES in the field will be but the urest of a Wave of Industry, as wide as the American Continent and as deep as the American South That YOUR COUNTRY may know what the Engineers are doing, the Associated Advertising Clubs of the World have relegated their services to the President of the United States. And this advertisement, published tree by this paper, is part of a nation-wide series to secure YOUR co-operation with the Engineers.

This is, doubtless, the question you are asking yourself. Here is the answer: If you are a manufacturer co-operate fully with the Engineers so they can do their job quickly and efficiently; if you are a working man help your employer to help the Engineers and be prepared, if so needed, to be a Solcher in Industry, behind the firing line, which is just as important as being a toldier on the firing line; if you are a business man or a professional man, or whoever you are, help mobilize "GOOD WILL" behind this patriotic task of the Engineers in behalf of National Defense and International Peace. A wedding which came as quite a surprise to their many friends was that of
Mr. Fred Abraham to Miss Mina Hall,
which event was solemnized at Coalmont last Monday morning at 8 o'clock,
at the home of the bride's parents, Mr.
and Mrs Ed Hall. Rev. C. R. Wade of
the M. E. Church, South, officiated in
his usual impressive way. Only the
immediate family and a few limited
friends were present. Immediately
after the ceremony the young couple
left for Tracy City, where they caught
the 10 o'clock train for Chattanooga and
other points where they will spend
their honeymoon.

The bride is the assistant post-mistress at the Coalmont post office and is
an accomplished and refined young
